Manalo will be missed

Reader's Alley

By the Helena IR - Letters to the Editor

We at ExplorationWorks! bid farewell and best wishes to Dennis Manalo of FAST Enterprises, recognizing that we are saying good-bye to a good friend and visionary leader.

FAST and its 20-plus employees have made Helena their home and helped make it a better place. The FAST corporate policy of community engagement is widespread. The company and its employees have supported numerous organizations in the state.

Dennis is a brilliant, kind and gentle CEO, who is an incredible asset to our community and to ExplorationWorks!. He is committed to his vision for engaging youth in science and technology and building an ever-stronger and more capable workforce in Montana. Dennis' participation in ExplorationWorks! ranged from strong board leadership, providing excellent participation in the development and governance of the organization, to the participating with the FAST crew painting a classroom, to networking ExplorationWorks! in the technical industry, to generous financial support.

It's been a great pleasure to get to know and work with Dennis. We'll miss him. We look forward to continued work with FAST locally and Dennis across the miles.

Many, many thanks to Dennis and FAST Enterprises for all they have done for ExplorationWorks! and for Montana!
